

# PATTAYA

THE INDEED CONDO

# GRAND P PROPERTY

## *WHO WE ARE*

Founded in 2020, Grand P Property was created with one clear vision: to develop residential spaces that truly reflect the way people live today.

Under *The Indeed Condo* brand, our journey began in Chonburi Province and has since expanded across Bangkok and its surrounding regions. To date, we have successfully delivered *more than 5,000 residential units*, each shaped by our commitment to thoughtful design, quality construction, and accessible living.

The Indeed was built on a simple belief that *exceptional living shouldn't come at an exceptional price*. Thoughtfully designed, carefully crafted, and genuinely accessible — this is the standard we hold ourselves to, and the promise we deliver.

# THE INDEED CONDO PATTAYA

*NOT EVERY ESCAPE HAS TO BE TEMPORARY.*

Some homes are made to live in. Others are made to escape to. The Indeed Condo Pattaya is where resort-inspired living becomes your everyday reality — conceived for those who believe that home should feel like the finest escape, not occasionally, but every single day.

Just a short walk from the shimmering shores of Jomtien Beach, a sweeping pool stretches the full length of all three buildings — the kind of centerpiece that turns an ordinary afternoon into something worth remembering. Lush greenery frames every view, and the light shifts beautifully throughout the day — golden in the morning, deep and warm by evening over the Gulf of Thailand. A world away from the city, without ever leaving it.

This is not just a home by the sea. This is your *permanent vacation*.
